Exercise 2: College Symposium Website using HTML + CSS

TechNova 2026 – College Symposium Website

Exercise 2 – College Symposium Website using HTML + CSS

1. Problem Description

Mini Project: College Symposium Website (HTML + CSS Only)

Scenario

- Your college is organizing a national-level technical symposium called "TechNova 2026". The organizing committee wants a website to provide information about the event, showcase competitions, display schedules, and allow students to register online.
- Design and develop a website using only HTML and CSS.

Website Structure

Page 1: Home (index.html)

Purpose

Welcome visitors and provide an overview of the symposium.

Content

- College logo
- Symposium banner image
- Symposium name: TechNova 2026
- Theme of the event
- Date and venue
- Brief introduction
- Navigation menu to all pages
- Highlights section
- 500+ Participants
- 15 Events
- Cash Prizes
- Industry Experts

Page 2: About Symposium (about.html)

Purpose

4. Learning Outcomes

- Learned how to link an external stylesheet and use different CSS selectors (element, class, id, hover, ::after) to style a page.
- Practiced layout techniques such as Flexbox, Grid, positioning and media queries to arrange content and make the site responsive.
- Understood how keeping the same HTML and only adding CSS completely changes the look of a website.
